EDUCATION

Georgia Institute of Technology, Atlanta, Georgia

May 2027

Bachelor of Science in Computer Science, Threads: Intelligence & People, Minor in Industrial Design

GPA: 3.84/4.00

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Artificial Intelligence, Information Visualization, Human-Centered Computing & UI Design, Design & Analysis of Algorithms

Honors: Faculty Honors (2024, Fall 2025); Dean's List (Fall 2023, Spring 2025, Spring 2026)

TECHNICAL SKILLS

Languages & Frameworks – Python, Java, JavaScript, Swift, Kotlin, SQL, C#, C++, React, React Native, Ionic & Capacitor, Unity

Databases & Tools – SQL Server, Microsoft Fabric, Power BI, Streamlit, Git/GitHub, Pydantic, OpenAI APIs, Proxyman

ML/AI – scikit-learn, Naïve Bayes, Logistic Regression, MLPs, Feature Engineering, Model Evaluation, Game AI

WORK EXPERIENCE

Flock, Atlanta, GA – *Mobile Software Engineer Intern (Part-Time)*

May 2026 – Present

- Built "Trending Plates," a cross-platform iOS (Swift) and Android (Kotlin) feature that alerts officers nationwide when another officer searches the same license plate and enables direct email outreach between them, connecting cross-jurisdiction leads, driving 100+ weekly active users, and presented to the executive board
- Reviewed 20+ pull requests and shipped additional features spanning data compliance and UX improvements across both mobile platforms

Praying for the Next Generation (PFTNG), Atlanta, GA – *Mobile Engineer*

Jan 2026 – Present

- Developed and published a cross-platform iOS/Android app (PFTNG) using Ionic, Capacitor, and Firebase, for 1,000+ users
- Partnered with stakeholders to identify user needs and led a 30+ person beta test to guide pre-release refinements

SKANSKA, Charlotte, NC – *IT Data Management/Engineering Intern*

Jun 2025 – Jul 2025

- Designed Power BI dashboards, optimized SQL Server pipelines, and built Python/Streamlit apps with OpenAI APIs for LLM-driven extraction, automating reporting and legal compliance workflows

PROGRAMMING PROJECTS

Student Programming Lead, Vertically Integrated Project — Current Crisis

Aug 2025 – Present

- Student Lead for Current Crisis, a large-scale Unity (C#) IRB-reviewed simulation game modeling power grid resilience under wildfires and extreme events
- Built and maintained scalable, modular C# systems for real-time simulation, state management, and player decision logging
- Conducted code reviews, mentored junior developers, and managed planning across multiple sprints

Predictive Modeling for Sleep Apnea Therapy Compliance | Python

Aug 2025 – Dec 2025

- Built models to predict CPAP therapy compliance using 800K+ nightly patient records
- Engineered features for usage patterns and demographics, then trained Naïve Bayes, Logistic Regression, and MLP to flag patients needing intervention

Interactive Visualizations for Trends in Video Game Consumerism | JavaScript, HTML/CSS, D3.js

Aug 2025 – Dec 2025

- Built 6 different visualizations using JavaScript and D3.js.
- Cleaned and imported data from Kaggle datasets surrounding video game sales and aggregated data to help viewers gain new insights into trends in sales
- Earned 3rd Place recognition from course faculty for outstanding project execution

LEADERSHIP AND COMMUNITY ENGAGEMENT

Project Manager, GT WebDev — Client Project

Jan 2026 – Present

- Led a semester-long project to design and build a React website & mobile app prototype for a nonprofit organization

Team Member, TOM — Tikkun Olam Makers

Aug 2025 – Present

- Collaborated on the development, design, and materials research of an assistive bath chair for an infant with spinal deformities affecting mobility

Executive Recruitment Chair, Theta Chi Fraternity

Aug 2024 – Aug 2025

- Orchestrated recruitment strategies at Georgia Tech, leading to the successful recruitment of 30+ new members
- Organized recruitment events, formal rush activities, summer programming, and maintained detailed event records

ADDITIONAL SKILLS AND INTERESTS

Languages: English, Spanish

Fine Arts: Piano (Received Superior++ from Musicians Guild in 2023)

Interests: Baking, Rock Climbing, Reading, Live Jazz
